Email To SMS Email Address List

Last Update by Admin on November 15, 2007

[Email To SMS Gateway Email Addresses](#) | [EmailTextMessages.com](#)

This site aims to be the most complete and up to date list of email addresses that can be used to send text messages to phones. Hence email text messages or email-to-sms. This is the most simple way of sending text messages from the internet or from your computer to phones. These email addresses essentially act as a direct link to a carriers SMS gateway. Most other lists of carrier's text messaging email addresses are out of date and obsolete in 2007. The biggest change being Cingular consolidating everything to a new AT&T email address for their wireless subscribers. This list can be used to help developers develop free text messaging solutions and services. The list includes US, Canadian and international mobile carriers for worldwide texting.
